Sherritt to Present at RBC Capital Markets Conference

TORONTO, October 3, 2006 – Guy Bentinck, Senior Vice President, Finance and Chief Financial Officer of Sherritt, will present at the RBC Capital Markets Conference “Nickel: Bridging the Supply Gap Exploration, Technology and The New World Order” on Wednesday, October 4, 2006 at The Fairmont Royal York in Toronto at 10:55 a.m.

An archive of the presentation will be available at Sherritt’s website, www.sherritt.com later that day.

Sherritt International Corporation is a diversified resource company involved in the production of thermal coal, nickel, cobalt, oil and electricity. Its success is built on utilizing innovative technologies and the breadth of its financial and operational expertise to increase productivity and profitability. Sherritt continues to explore opportunities to grow its \$2.4 billion asset base through expansion of its existing businesses and strategic acquisitions.

Sherritt’s 152 million common shares and \$192 million 7% convertible debentures trade on the Toronto Stock Exchange under the symbols S and S.DB.A respectively. Sherritt’s \$274 million principal amount of 7.875% Senior Unsecured Debentures Series A, due November 26, 2012 trade on the over the counter bond market.
